

2019 International Conference on 3D Immersion (IC3D 2019)

Invitation to participate

Dear 3D immersion enthusiast, potential author, and/or participant of **IC3D 2019**,

We would like to invite you to participate to the 9th edition of **IC3D** to be held at the Center for Fine Arts (also called BOZAR) of **Brussels, Belgium** - thus in the capital of Europe - on **11-12 December 2019** (Wed-Thu). As for all eight (8) prior editions, we expect the conference to be technically co-sponsored by the **IEEE Signal Processing Society**, and the proceedings to be archived in the **Xplore Digital Library**.

We would be delighted if you decided to submit a paper to **IC3D 2019**. The Call for papers (with the scope, the submission deadline,...) and other information are found at www.stereopsia.com/ic3d.

Besides IC3D, we would be delighted to see you attend the whole **Stereopsia** event, the **World Immersion Forum**, which is fully and exclusively dedicated to all aspects of 3D immersion. We invite you to explore the facets of Stereopsia at www.stereopsia.com ; several are new in comparison to earlier editions.

You may also be interested in the fact that the new European H2020 project called **XR4ALL** (www.xr4all.eu) will hold its annual event jointly with Stereopsia.

Please, do not hesitate to contact the Publication chair Gauthier Lafruit (gauthier.lafruit@ulb.ac.be) or me concerning your participation as an author. For any question with the processes of submission, reviews, etc, please contact David Grogna (dgrogna@uliege.be).

Kind regards,

Jacques G. Verly

General chair of **Stereopsia 2019** and **IC3D 2019**
Honorary Professor, Department of Electrical Engineering and Computer Science
Former Vice-Dean, School of Engineering
University of Liège, Liège, Belgium
